Commercial Information**SURFACE PREPARATION INNOVATION****Version Date:** September 2013**Title:** Cosmo Blast Helmet (*SANS 54594:2006 compliant*)**COSMO BLAST HELMET**

The new Cosmo abrasive blasting helmet is the helmet of choice and is EN14594:2005 Class 4B approved and therefore compliant to SANS 54594:2006.

The helmet is designed to protect the blasting operator from rebounding abrasive, dust, debris and excessive noise levels generated from the abrasive blasting process. The 3.2kg Air Respirator Helmet is supplied standard with Acoustic Flex noise suppression Breathing Tube and Air Flow Indicator providing assurance for the operator that air flow to the Supplied Air Respirator is within regulatory Specification.

**Product Features and Benefits:**

- Rigid polyethylene molded outer shell provides superior protection and the removable Nylon Inner Collar and Outer Cape is washable.
- Air Flow Indicator providing operator assurance that air is supplied to the helmet.
- Quick release Window frame with 3 layers of protection; Outer Tear Off Lenses, Intermediate Lens and Inner Lens.
- Protective rim on outer shell with sealing band, washable inner collar, Heavy Duty inner and outer Cape, eliminates abrasive and dust from entering.
- Adjustable head harness ensures proper fitment.
- Helmet strap handle for easy handling and storage.
- Large flat lens provides excellent visibility without distortion.
- Optional integration with Air Cooling or Climate Controllers.

Cold Air Tube decrease air temp by 18°C
Hot Air Tube increase air temp by 17°C
