

SECTION 8 **AFTERCoolERS**

AFTERCOOLERS

PART.NR.	MODEL	DESCRIPTION
----------	-------	-------------

50845	ABAC - 120 /PNEUMATIC	Capacity 12,0 cbm per minute / 424 CFM
50860	ABAC - 250 /PNEUMATIC	Capacity 25,0 cbm per minute / 883 CFM

Complete with:

- Moisture separator
- Oiler and moisture separator for pneumatic motor
- Heavy duty transport frame

Maximum operating pressure 16 bar

Capacities are based upon the following conditions:

Ambient temperature	: 21°C - 35°C
Working pressure	: 8 bar
Rel. humidity	: 60%
Air inlet temp.	: 120°C
ΔT	: 9°C (above ambient temperature)

The above mentioned aftercoolers are also available in electric execution.
